

Crisis Prevention Plan Template

Use the information gathering in the functional assessment as the guide.

1. Prevention Planning- Triggers and Setting Events

For the Prevention Plan, brainstorm options that directly relate to the setting events and triggers that include both natural supports and formal supports. For good planning, use the information gathered regarding Exceptions (all things being the same, what has cause the behavior not to occur?).

If the prevention steps do not work and they continue to escalate.

2. Early Intervention Planning- (Replacement Behavior) Plan

For Early Intervention Plan, brainstorm options that directly relate to the function of the behavior. What behavior could replace the behavior and still meet the same purpose? Identify strengths, culture and resources to support a less harmful behavior. These options need to 'fit' with the strengths and culture of the family. However, what is most important is that it meets the same function as the behavior that has been "working".

3. Intervention - Intervention (Response/Consequence) Plan

For the Intervention plan, brainstorm options regarding what needs to change in the environment so the crisis behavior does not continue. Also, what are the consequences of the behavior and what do the team members need to do if behavior occurs?
